The University of Mississippi School of Law is a world-leader in air and space law education, research, and public service. With the oldest, most recognized space law tradition in the nation, its legacy in space law scholarship dates back to 1966. The law school's Journal of Space Law, the world's oldest journal devoted to space law, published its first issue in 1973, and is recognized as one of the preeminent journals in the field of space law. The law school has offered courses in both aviation and space law to its students since 2003, with the Certificate in Remote Sensing, Air and Space Law, offered at the J.D. level since 2007.

This LL.M. degree program is designed for both U.S. and non-U.S. attorneys interested in a rigorous legal curriculum in U.S., international, and comparative air and space law.
