Room: TBD

Grading: graded

Enrollment: 10

Notes: business law concentration elective

Description: This course leverages the elements of formal competition allowing students to hone their communication, coaching, and critical thinking skills. Business success continues to demand effective verbal communication skills. The Speaker's Edge focuses on formal, public speaking, - but the course also demands that participants consider their "presentation of self" in informal and interpersonal contexts. Our goal is to allow students to experience multiple opportunities to present speeches, critique and coach others, and "road test" their professional networking abilities in an intensive two week "boot camp" for advanced business communication.
